

## **TERMS AND CONDITIONS**

This Report is not a guarantee, valuation or appraisal. It contains only the characteristics of the diamond described herein after it has been graded, tested, examined and analyzed by IGL&I under 10X magnification by using the techniques and equipment available to the Laboratory at the time of the examination, including fully corrected triplet-loupe and binocular microscope, master color comparison diamonds, standardized viewing environment and light source, electronic carat balance, high intensity short wave fluorescence imaging system, short wave ultraviolet transmission detection system, optical measuring device, Proportion Scope, ultraviolet-lamps, millimeter guage, and ancillary instruments as necessary. Red symbols denote internal characteristics (inclusions). Green or black symbols denote external characteristics (blemishes).

Diagram is an approximate representation of the diamond, and symbols shown indicate type, position, and approximate size of clarity characteristics. All clarity characteristics may not have been shown. Details of finish are not shown.

The recipient of this report may wish to consult a credentialed Jeweller or Gemologist about the importance and interrelationship of cut, color, clarity and carat weight. The result of any other examination performed on the diamond may differ depending upon (i) when, how and by whom the diamond is examined and (ii) the changes and improvements in techniques and equipment that may have occurred which may enable the examiner to detect among other things, the use of processes of altering the characteristics of a diamond which use was previously undetectable by IGL&I or alternations which became reversible, even if the process remains undetectable.

As a protection to public and IGL&I, this Report, the name, trademarks, service marks and logos of the International Gemological Laboratories and Institute or any part of which relates to an IGL&I Report number or to an IGL&I trademark, service mark, or logo, may not be used in whole or in part for purposes of advertising, publicity or promotion, and this Report may not be referred to as a guarantee, valuation or an appraisal.
